FRANKLYN OLIHA

Machine Learning Engineer | AI Systems Builder | Software Engineer

Manchester, UK | LinkedIn | GitHub | Portfolio

Professional Summary

Machine Learning Engineer specialising in designing and deploying production-grade AI systems across public sector and commercial environments. Experienced in building end-to-end machine learning pipelines, NLP systems, and AI-powered applications with a focus on scalability and real-world impact. Founder of MudiaTech, developing AI-powered SaaS platforms and automation systems.

Key Projects & Systems

- CareerAgent AI – Multi-tenant AI SaaS platform for job automation (FastAPI, PostgreSQL)
- LeadMate AI – AI-powered lead generation and outreach system
- Human Trafficking NLP System – BERT-based model improving accuracy by +11pp
- UK Property Prediction Platform – ML system using 35M+ property records
- AI Automation Systems – n8n + Docker pipelines reducing manual work

Professional Experience

- Machine Learning Engineer – UK Public Sector Organisation: Built LLM systems, automated workflows (60% reduction)
- Founder & Lead ML Engineer – MudiaTech: Built SaaS and AI automation systems
- ML Engineer (Contract) – NGO: Developed NLP detection model and deployed via Gradio
- AI Software Engineer – Freelance: Improved LLM reliability and testing
- Software Engineer: Built backend systems and analytics tools

Technical Skills

- ML/AI: NLP, BERT, LLMs, PyTorch
- Backend: FastAPI, Django, REST APIs
- Data: Pandas, NumPy
- DevOps: Docker, Azure
- Languages: Python, SQL, JavaScript

Education

- MSc Data Science & Machine Learning (Distinction) – University of Salford
- BEng (Hons) Software Engineering (First Class) – University of Bolton
